Mount Carmel & Bay Bill / wildfire report

HISTORY, SEASONAL ACTIVITY AND FIRE RESTRICTIONS / OCTOBER FOCUS

MAPPED HISTORICAL FIRE FOOTPRINTS

N ↑ | 1:76,919 | NAD83 / UTM 12N

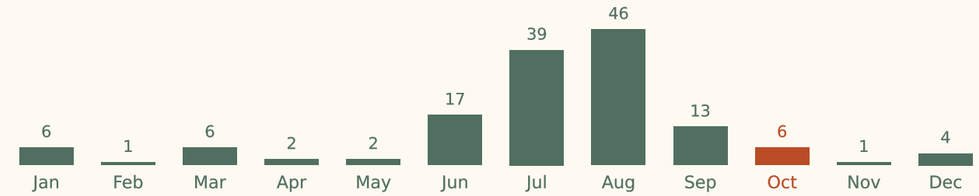

Wildfire

Prescribed fire

MTBS: 0 intersecting footprint(s).
Western inventory generally >=1,000 acres.

Dots: reported discovery points; approximate locations.

Recorded wildfire discoveries by month | FPA FOD 1992–2024

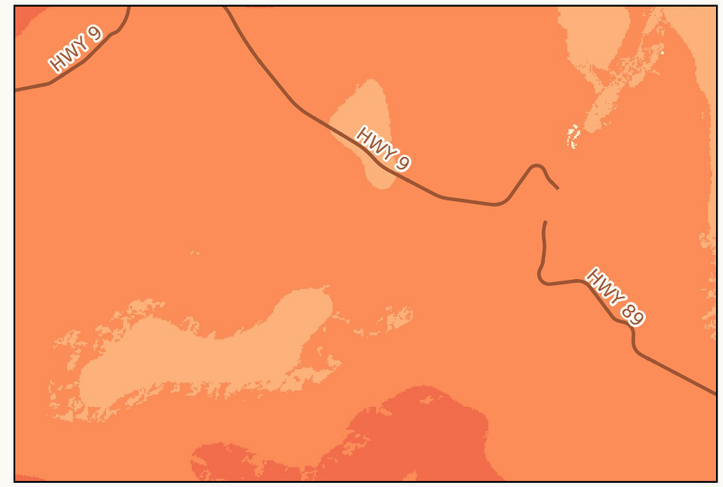

n=143; unknown month=0. Counts within map extent; October highlighted. Not monthly burn probability.

1992-2024: 143 reported fires in the detail rectangle; October: 6.
Discovery month counts, not trip probability. Zero records do not mean zero risk.

SOURCES (click for URLs) F01-F04 fire history / annual model; F05 dated orders and outlook. All periods, thresholds and update links in source key.

09 OCT 2026 / PLANNING DRAFT / Historical activity is not October trip probability / GeoPDF: main map only

ANNUAL LIKELIHOOD / RELATIVE

N ↑ | 1:133,897 | NAD83 / UTM 12N

Lower < official annual likelihood classes > Higher

WRC 2024 model; landscape through 2020.
Visualization only; exact probability unavailable.
Annual likelihood is not an October forecast.

AUTHORITY / DATED RESTRICTION CHECK

AUTHORITY / PATCHWORK OF PARCELS

BLM Kanab / Paria River District governs BLM land. Kane County parcels also include state and private land, including Barracks Ranch. Utah FFSL covers state and unincorporated private parcels; local and owner conditions also apply. A fire department boundary is not camping permission.

RESTRICTIONS CHECKED OCT 9

Paria BLM and Kane state / unincorporated-private Stage 1 restrictions ended Sep 4. No replacement seasonal order was listed in checked indexes. BLM fireworks / explosives prohibitions remain. The Trust Lands banner links to 2021, not proof of current status.

OCTOBER OUTLOOK / CHECK BEFORE TRAVEL

NIFC issued Oct 1: normal significant fire potential for southern Utah, Oct-Jan. Normal does not mean no fire. Next issue Nov 2. Check current orders, campsite signs and daily conditions; future monthly bans are unknown.
