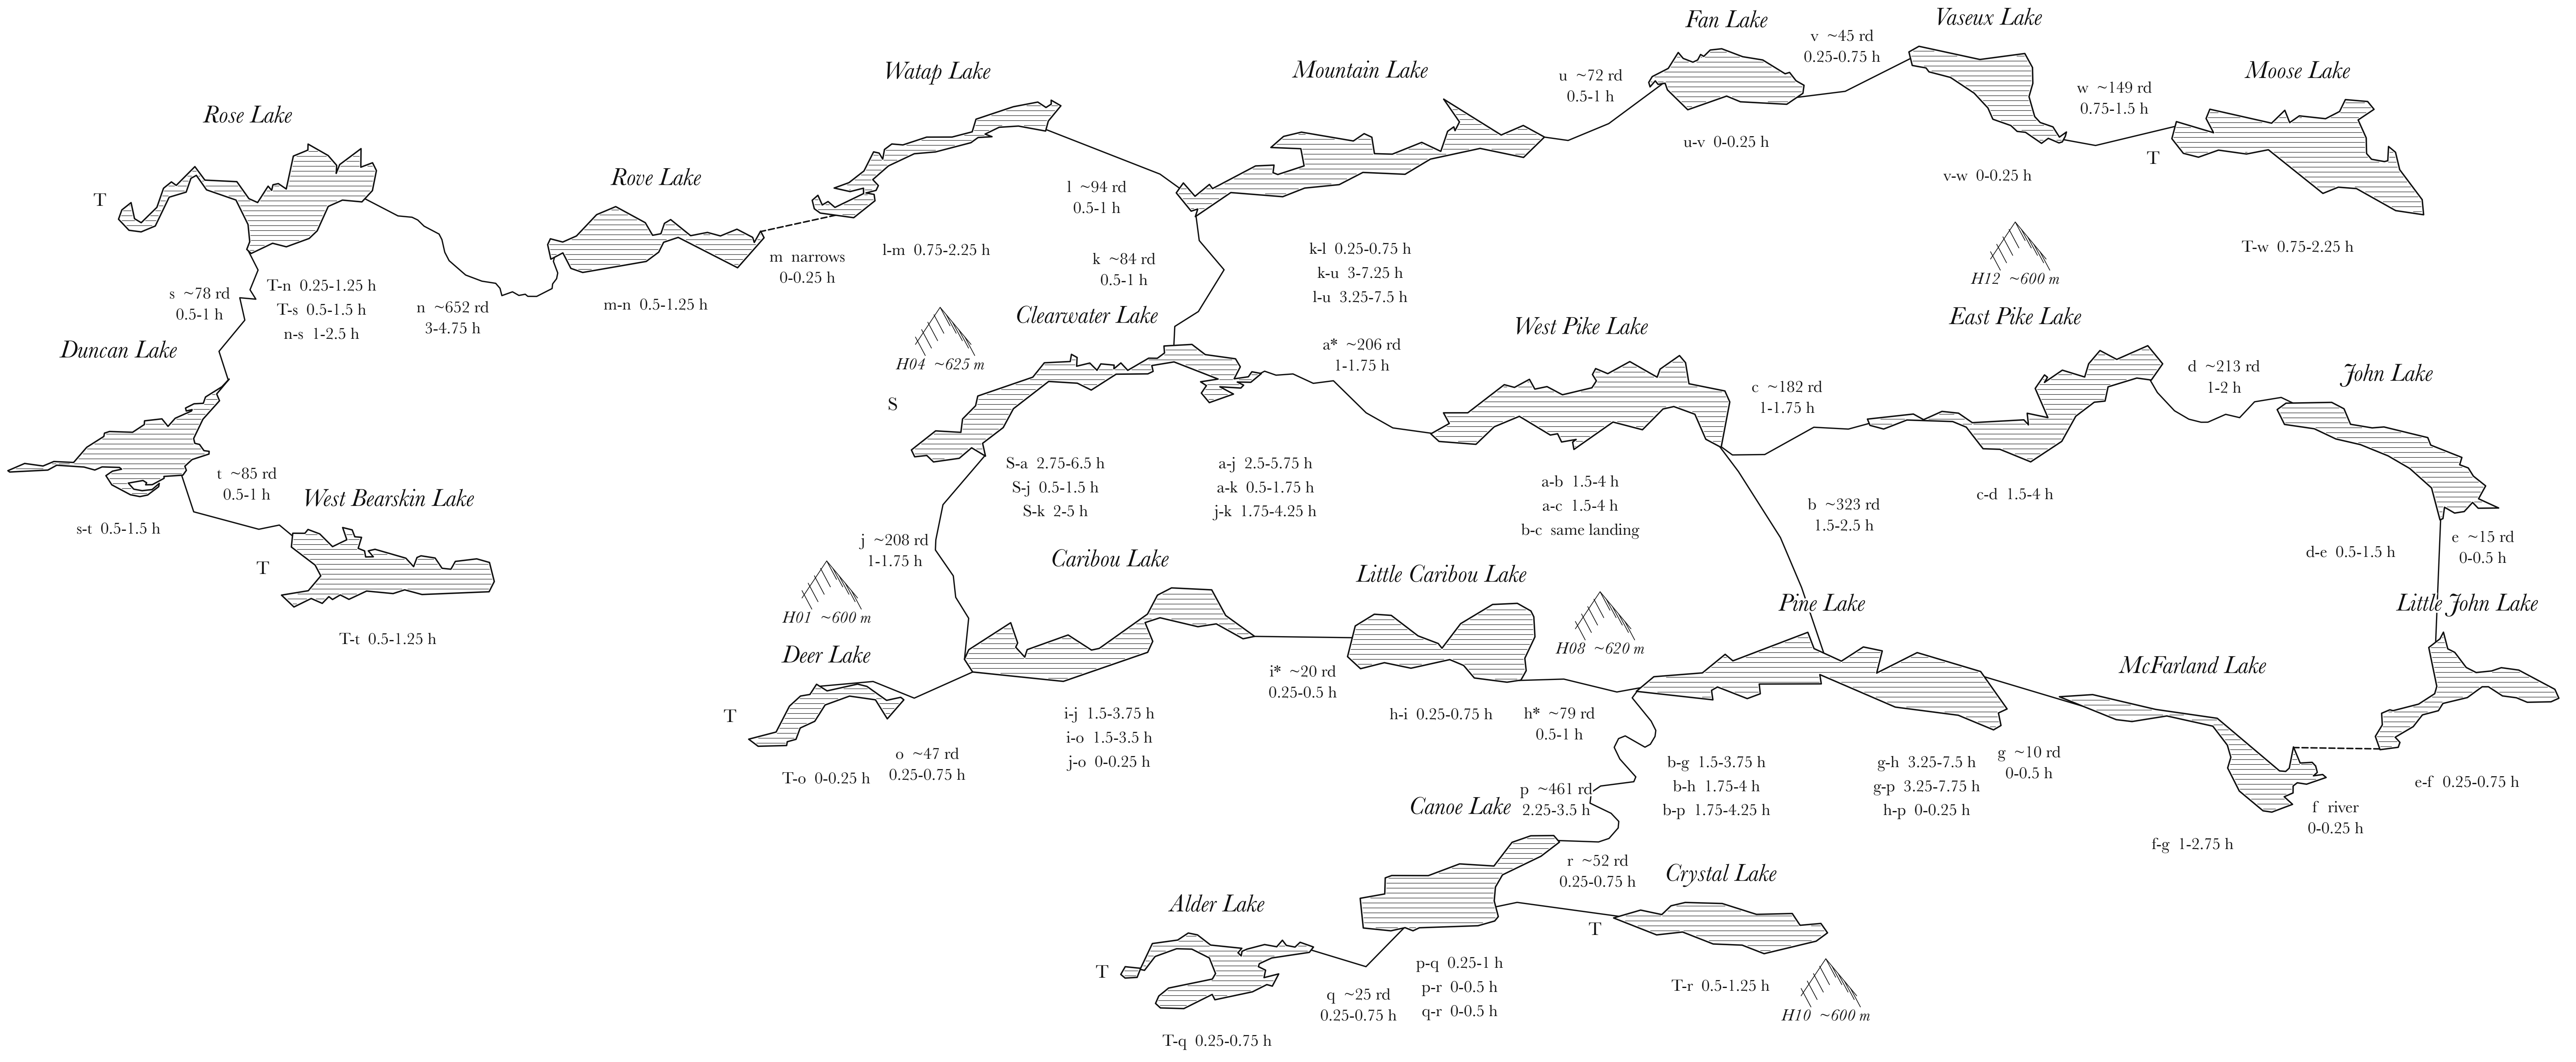
A DRAUGHT OF THE EASTERN LAKES

The Canoe Traveller's Network

Twenty-two eastern lakes / Shapes remembered; time emphasized / A modern hypothetical exercise



READING THE DRAUGHT

Lake figures: hours between letters. Bent carry links: derived rods (~) & double-carry hours. Dashed: water links.
S = departure; T = imagined turning place. * = approximate carry geometry. Shape and spacing emphasize time, without a uniform scale.

Simplified real footprints & trail bends, deliberately distorted.
Take no bearings or distances from the drawing.
Windbound waits fall outside the printed time ranges.
