PLANNING DRAFT / 07 OCT 2026 / Water, permissions & rig fit not field-verified / Blue streams are not refill promises / GeoPDF: main map only

READ THE ATLAS

02 Paria River Ranch and nearby canyons
08 Mount Carmel / Bay Bill
14 Red Canyon / Losee / Casto

These are separate hauling destinations. Map distances are not road mileage.

PLAN FOR THE WHOLE RIG

Road lines do not establish trailer fit. Confirm loaded rig length, width, height, ground clearance, turning room and wet-weather access before committing. No turnaround has been measured.

WATER IS A CRITICAL CLAIM

R1: ranch advertises potable supply. [E01]
D4: seasonal horse-only hydrants. [E03]
Blue streams are not verified supplies.
Five gallons is not a daily maximum: UMN cites about 8-10 gallons for a typical 1,000 lb horse, more with work/heat. [E15]

SCOPE STILL TO CONFIRM

Trip dates, horse count, exact rig and Peter's map extent remain open. "Red Mountain" may mean another place; this draft covers the Coyote Hollow / Red Canyon / Thunder Mountain cluster.
